My submission is:

(Include details and reasons for your position)

I would like to see an increase from 5m to 6m. In the numerous applications I have prepared for buildings in outstanding landscapes and General Coastal Zone of the Operative District Plan I have come across many examples where the architect, in endeavouring to introduce some interesting angles and recesses and features that help mitigate the visual impact of the building, has slightly encroached a 5m height limit. Without increasing the risk of visual impact, I believe the standard can be relaxed to 6m.

I also believe that the limitless and ill defined nature of the wording of the rest of NFL-S1, item 1 could lead to over zealous interpretation of the standard and require consent when none should be required. For example what if the nearest 'ridgeline', headland or peninsula is on another property, or more than 1km away?

I seek the following decision from the Council:

(Give precise details. If seeking amendments, how would you like to see the provision amended?)

Amend NFL-S1. 1:

The maximum height of any new building or structure above ground level is 6m and must not exceed the height of the nearest ridgeline, headland or peninsula within or adjacent to the property.

Similar wording change should be made to NFL-S1. 2.
