Submission points

Point 1.1

Section: Sites and areas of significance to Maori

Sentiment: Oppose

Submission:

I object to the part of my paddock being designated as an area significant to Maori (MS01-33), I have previously objected to this designation, I note that the area has been moved to a different part of my paddock which is still of no significands to Maori, there

is nothing in this area except some rush bushes and grass, it has been this way for generations and prior to the area being developed it was simple scrubland.

As I have submitted earlier I wish to have this area removed as it is clearly a mistake and probably was supposed to refer to a significant lake which is on the adjacent property (Shenstone forestry).

Relief sought

I want the area mistakenly marked as significant to Maori, identified as MS01-33 removed from my property entirely. I require a specification disambiguating what is supposed to be significant about this area of my paddock?
