Number Withdrawn	4

### Comments on any changes or trends in the Committee's workload

During 2023-2024, the Committee has seen an increase in the number of hearings. The community has been more active in voicing concerns on applications. The Inspectorate has been opposing applications due to an applicant's suitability or in support of community concerns. In 2023-2024, 12 hearings were held compared to 8 in 2022-2023.

The Committee has noticed a concerted push from the Medical Officer of Health, and sometimes Police, to impose a raft of conditions around single sales and high strength beers on OFF licences. Such conditions are warranted from time to time, but only on a site-specific basis.

The number of licenses (ON/OFF/CLUB) remain similar to last year.

### Comments on any new initiatives the Committee has developed/adopted in 2023-2024

Recently, the Committee has incorporated Tikanga Māori within hearing settings. The Committee has also begun working on making hearings less formal. The Committee encourages participation and attendance at hearings when selecting venues, enabling virtual attendance, and when organizing hearing times.

### Has your Committee developed a Local Alcohol Policy?

The Committee has not developed a Local Alcohol Policy (LAP).

Committee's do not develop LAP's, Councils do. The Committee assesses an application against an LAP; therefore, it would be inappropriate for the Committee to be involved in the development of an LAP. As a result, the Committee remains separate from this process.

However, the Committee would welcome any Council move to resurrect the LAP process.

Any consultative community guidelines will also be welcomed by the Committee.

### Comments on the ways in which the Committee believe the Sale and Supply of Alcohol Act 2012 is, or is not, achieving its object

The object of the Sale and Supply of Alcohol Act 2012 is that:

- a) The sale, supply and consumption should be undertaken safely and responsibly; and
- b) The harm caused by the excessive or inappropriate consumption of alcohol should be minimised.

All OFF-licence purchases are consumed elsewhere, and there is little that can be done in stores to influence moderate and appropriate consumption. However, where there is clear evidence of a problem, the DLC can influence product type and sales volume from stores by imposing conditions either by consent or as part of the hearing process.

### What changes or trends in licensing have you seen since the Act came into force?

Applicants and agencies are getting more competent and organised for hearings. The changes to cross-examination during hearing proceedings may be counterproductive. More onus is placed on hearing parties, particularly reporting agencies, to ensure all matters are disclosed in reports or submissions before a hearing. Hearing parties need to ensure that all matters, worthy of consideration, are reported on in order for the Committee to make well-informed decisions. This also requires Committee members to upskill in questioning, to ensure all matters are covered to ensure robust decision-making.

### What changes to practices and procedures under the Act would you find beneficial?

- Clear requirements within section 53 of the Act to ensure those providing food comply with the Food Act 2014 requirements. The Food Act 2014 requires most food businesses to be registered. Whilst we know that the Act and Food Act 2014 must be considered separately, if a licensed premises is offering food to comply with section 53 of the Act, they must also be registered (where required) under the Food Act 2014.

- The need for stricter rules and regulations for licensed premises selling alcohol online. Restriction on products that can be sold online, and strict delivery times must be introduced.
- Clear regulations on licensed premises selling alcohol on social media. Clear rules and guidelines need to be introduced which clarifies whether a licensed premises promoting their product on social media is acceptable or not.
- Some advice to applicants about why they must have a compliant water supply, their obligations to meet all other Acts.
- Section 52 of the Act should be updated to include a range rather than stating “not more than 2.5%” ethanol by volume at 20°C. To find the full range currently, this can be found in two different places which can be confusing for applicants: [Low Alcohol Displays | New Zealand Ministry of Justice](#) and [Sale and Supply of Alcohol Act 2012 No 120 \(as at 23 December 2023\), Public Act 52 Low-alcohol drinks to be available – New Zealand Legislation](#)
- As per [Section 117](#) of Sale of Liquor Act 1989 include a provision for identifying “kinds of managers”, however the Sale and Supply of Alcohol Act 2012 does not. Including this provision in the new Act, would assist in ensuring the manager is suitable to manage the type of premises in which they work at and avoid applicants obtaining a certificate to manage a low risk premises and then moving to a higher risk premises.
- Extending the Police and Medical Officer of Health reporting timeframes under section 103(4) to align with the public objection deadlines as per section 102(2). These reporting agencies are under resourced and struggle to have the time to inquire into applications adequately, therefore it is only fair that the Act is amended to extend the reporting timeline for these agencies.
- Increasing the prescribed fees as outlined in the Sale and Supply of Alcohol (Fees) Regulations 2013. Whilst it is acknowledged that Councils have the ability to make bylaws in relation to the fees payable, however Councils often lack the resources and finances to introduce such bylaws, and will no doubt be met with strong opposition from the alcohol industry and licensees. The current fees do not cover the costs associated with processing applications and DLC hearing costs, and it unreasonable to expect Council ratepayers to compensate.
- The fee structure for DLC members has not been reviewed since being set years ago. This makes it hard for Councils to recruit and retain competent members.
- Agencies are bringing matters to the DLC at renewal time that would historically have gone before ARLA, as an enforcement application, citing delays in the justice system.
