The specific provisions of the Plan that my submission relates to are: Objectives IB-O1, SUB-O2
Policies IB-P1, SUB-P8
IB-R4 Indigenous vegetation clearance and any associated land disturbance outside a SNA.
SUB-R17 Subdivision of a site containing a scheduled SNA
Others associated with these provisions, where appropriate.
Confirm your position: Support Support In-part Oppose (please tick relevant box)
My submission is: It is totally unacceptable for FNDC to essentially 'take' land without market rate compensation.
These rules appear to have the same effect as the previously tabled SNA proposals which were supposedly discarded when the ratepayers made their feelings very clear to the government.
We have purchased this land and worked hard to clear it of noxious vegetation this includes, at our own expense and physical effort, removing gorse, tobacco weed, Australian Sedge and Ragwort.
It is completely unreasonable that we should have to pay an ecologist to prove that our small amount of regenerated 'Native Bush' is not an SNA.
Given that our Title already includes covenanted land that we are protecting – as is the case for most land owners in the area. We believe that FNDC should not be legally allowed to commandeer any further land by underhand means as is proposed.
That these policies are being forced down from 'the top', where 'the top' exists outside of NZ, makes a complete mockery of NZ as a supposed democracy.
I seek the following decision from the Council:
IB-R4 PER-2 to be amended to allow unlimited area to be cleared per calendar year in Rural production Zone. OR at a minimum, whatever the previous district plan allowed. S69.001
Remove SUB-R17 entirely, it serves no useful purpose. A subdivided SNA is still a SNA. S69.006
The specific provisions of the Plan that my submission relates to are:
SUB-S1 Minimum allotment sizes — Rural Production Zone
Confirm your position: Support Support In-part Oppose (please tick relevant box)
My submission is: A minimum allotment of 8Ha is not practicable. This size is too large for most people wishing to have a lifestyle block. The constant effort / time / expense of keeping the area clear of noxious vegetation and predators is not viable for a small landholder.
Economically and socially The Far North needs to be able to attract more residents, being able to offer more lifestyle blocks for those people interested in pursuing a more self-sufficient lifestyle, would be a good way of increasing our population.
People from the main population centres in NZ that want to get away from the cramped 'chicken coop' living environment

Land owners should be entitled to further develop their land as they see fit, if it is otherwise unproductive. I seek the following decision from the Council: That smaller allotment sizes apply to properties that do not consist of highly productive land as is the case for much of the Far North. S69.002 The specific provisions of the Plan that my submission relates to are: IB-P9 Require landowners to manage pets and pest species, including dogs, cats, possums, rats and mustelids, to avoid risks to threatened indigenous species, including avoiding the introduction of pets and pest species into kiwi present or high-density kiwi areas. Confirm your position: Support Support In-part Oppose (please tick relevant box) My submission is: We don't know of any of our neighbouring land owners who are not already actively and at their own expense, eradicating noxious animals/predators. To make it a legal requirement is unnecessary, and, in practical terms, unenforceable. I seek the following decision from the Council: To remove the word 'require' from the rule and replace it with 'assist'. S69.003 The specific provisions of the Plan that my submission relates to are: GRZ-R9 Residential activity (multi-unit development) Confirm your position: Support Support In-part (please tick relevant box) My submission is: To allow/encourage multi-unit developments within the general residential zone is untenable without the supporting infrastructure for fresh water, sewage treatment, roading etc. is totally inadequate as things currently stand. To think FNDC has resources and funding to cope with even more housing developments especially in Mangonui, Coopers Beach & Taipa, is absurd. People moving to the region are generally doing so to get away from the high density rabbit-hutch environment that the main population centres have become. Why create the same problem here? I seek the following decision from the Council: S69.004 Rule GRZ-R9 should be removed. The specific provisions of the Plan that my submission relates to are: The whole PDP in general Support Support In-part Confirm your position: (please tick relevant box) My submission is:

It is not acceptable for governmental policy that has never been formally voted on by the public to be forced on us by our elected council.

We expect our elected council to be representing us by standing up for what we want and not to be acting as the governments' law enforcing officers.

I seek the following decision from the Council:

The PDP should be abolished and replaced with a plan that has been drafted in true consultation with the citizens and rate payers of the area. \$69.005
