(please provide details including the reference number of the specific provision you are submitting on)

SUB-R12 – Subdivision of a site within coastal hazard areas

My submission is:

(Include details and reasons for your position)

I believe the rule to be overly restrictive, and not completely in tune with (consistent with) the Regional Policy Statement for Northland. The latter requires subdivision plans to identify that building platforms are located outside high risk coastal hazard areas where as SUB-R12 just says 'coastal hazard area' regardless of level of risk. My understanding is that there is a distinction in the NRC's online coastal hazard mapping between levels of risk and these maps I believe have been brought into the PDP.

Whilst a default to non-complying activity status when not meeting the restricted discretionary status would appear reasonable if it isn't possible to identify building platforms outside the high risk coastal hazard areas, I believe a default to discretionary activity status is more appropriate where the risk is not as high.

I seek the following decision from the Council:

(Give precise details. If seeking amendments, how would you like to see the provision amended?)

It may seem an overly simplistic way of amending the rule to be less restrictive, but the Council could reserve the default to non-complying activity status for the high risk coastal hazards; and default to discretionary activity status for the lesser risk (likelihood) coastal hazard events.
