

Appendix 1 – Officers Recommended Amendments to Māori Purpose Zone Chapter

Note the below provisions represent the Section 42A Report Writing Officer’s recommended amendments to the provisions of the Proposed District Plan, in response to submissions (with underline used for new text and ~~strikethrough~~ for deleted text).

Overview

The Far North District contains a significant number of parcels of Māori freehold land, Māori customary land and general land owned by Māori, as defined in Te Ture Whenua Māori Act 1993 (TTWMA). It is recognised that this legal and governance framework for Māori land provides for a unique situation for tangata whenua.

The Māori Purpose zone provides for the use and development of Māori land which can support the social, cultural and economic aspirations of tangata whenua and enable a range of activities to be undertaken, such as marae, papakāinga, and economic activities which reflect Māori customs and values, while enabling tangata whenua to exercise kaitiakitanga.

Māori land is categorised into either:

- Māori Purpose zone - Urban, where the land adjoins the General Residential zone and is residential in character.
- Māori Purpose zone - Rural, where the land adjoins Rural zones, is rural in character and surrounded by a working rural environment with a wide range of productive activities.

The Council has responsibilities under the Treaty, the RMA, Te Ture Whenua Māori Act and the Northland Regional Policy Statement to provide for the on-going use and development of Māori land.

Objectives	
MPZ-O1	The viability of the Māori Purpose zone is ensured for future generations.
MPZ-O2	The Māori Purpose zone enables a range of social, cultural and economic development opportunities that support the occupation, use, development and ongoing relationship with ancestral land.
MPZ-O3	Use and development in the Māori Purpose zone reflects the sustainable carrying <u>servicing</u> ¹ capacity of the land and surrounding environment.
Policies	
MPZ-P1	Provide for the use and development of ancestral Māori land administered under Te Ture Whenua Māori Act 1993.
MPZ-P2	Enable a range of activities on Māori land in the Māori Purpose zone including marae, papakāinga, customary use, cultural and small-scale ² commercial activities where the adverse effects can be avoided, remedied or mitigated.
MPZ-P3	Provide for development on Māori land where it is demonstrated: <ol style="list-style-type: none"> it is compatible with surrounding activities; it will not compromise occupation, development and use of Māori land; it will not compromise use of adjacent land or other zones to be efficiently and effectively used for their intended purpose; it maintains character and amenity of surrounding area;

¹ TRAION S498.078, TROW S486.090 and TRONT S390.077

² Matauri X Inc. S396.002

	<p>e. it provides for community wellbeing, health and safety;</p> <p>f. it can be serviced by onsite infrastructure or reticulated infrastructure where this is available; and</p> <p>g. that any adverse effects can be avoided, remedied or mitigated.</p>
<p>MPZ-P4</p>	<p><u>Consider the following matters where relevant when assessing and managing the effects of land use and subdivision in the Māori Purpose zone:</u>³ Manage land use and subdivision to address the effects of the activity requiring resource consent, including (but not limited to) consideration of the following matters where relevant to the application:</p> <p>a. consistency with the scale, density, design and character of the environment and purpose of the zone;</p> <p>b. the location, scale and design of buildings and structures;</p> <p>c. the positive effects resulting from the economic, social and cultural wellbeing provided by the proposed activity.</p> <p>d. at zone interfaces:</p> <p>i. any setbacks, fencing, screening or landscaping required to address potential conflicts;</p> <p>ii. managing reverse sensitivity effects on adjacent land uses, including the ability of surrounding properties to undertake primary production activities in a rural environment;</p> <p>e. the adequacy and capacity of available or programmed development infrastructure to accommodate the proposed activity; or the capacity of the site to cater for on-site infrastructure associated with the proposed activity;</p> <p>f. the adequacy of roading infrastructure to service the proposed activity;</p> <p>g. managing natural hazards;</p> <p>h. any loss of highly productive land;</p> <p>i. adverse effects on areas with historic heritage and cultural values, natural features and landscapes, natural character or indigenous biodiversity values; and</p> <p>j. any historical, spiritual, or cultural association held by tangata whenua, with regard to the matters set out in Policy TW-P6.</p>
<p>Rules</p>	

Notes:

1. There may be other rules in Part 2 - District-Wide Matters of the District Plan that apply to a proposed activity, in addition to the rules in this zone chapter. These District-Wide rules may be more stringent than the rules in this chapter. Ensure that relevant District-Wide Matters chapters are also referred to in addition to this chapter, to determine whether resource consent is required under other rules in the District Plan. Refer to the *how the plan works* chapter to determine the activity status of a proposed activity where resource consent is required under multiple rules.
2. This zone chapter does not contain rules relating to setback to waterbodies and MHWS for building and structures or setbacks to waterbodies and MHWS for earthworks and indigenous vegetation clearance. The Natural Character chapter contains rules for activities within wetland, lake and river margins and the Coastal Environment chapter contains rules for activities within the coastal environment. The Natural Character chapter and Coastal Environment chapter should be referred to in addition to this zone chapter.⁴

³ Consequential amendment resulting from Rural Production section 42A report under clause 10(2)(b), Schedule 1, RMA

⁴ Consequential amendment resulting from Coastal Environment section 42A report under clause 10(2)(b), Schedule 1, RMA

MPZ-R1	New buildings or structures, <u>relocated buildings</u>⁵, and <u>or</u>⁶ extensions or alterations to existing buildings or structures	
Māori Purpose zone - Urban	Activity status: Permitted Where: PER-1 The new building or structure, <u>relocated buildings</u> , or extensions or alterations to an existing building or structure, will accommodate a permitted, <u>controlled or restricted discretionary activity</u> ⁷ .	Activity status where compliance not achieved with PER-2: Restricted Discretionary Matters of discretion are restricted to: a. the matters of discretion of any infringed standard
Māori Purpose zone - Rural	PER-2 The new building or structure, or extensions or alterations to an existing building or structure complies with standards: MPZ-S1 - Maximum height; MPZ-S2 - Height in relation to boundary; MPZ-S3 - Setback (excluding from MHWS or wetland, lake and river margins); MPZ-S4 - Setback from MHWS; ⁸ MPZ-S5 - Building or structure coverage; MPZ-S6 - On-site services ⁹ ; and MPZ-S7 Sensitive activities setback from boundaries of a Mineral Extraction overlay	Activity status where compliance not achieved with PER 1: Discretionary
MPZ-R2	Impermeable surfaces	
Māori Purpose zone - Urban	Activity status: Permitted Where: PER-1 The impermeable surface coverage of any site is no more than 50%.	Activity status where compliance not achieved with PER-1: Restricted Discretionary Matters of discretion are restricted to: a. the extent to which landscaping or vegetation may reduce adverse effects of run-off; b. the effectiveness of the proposed method for controlling stormwater on site; c. the availability of land for disposal of effluent and stormwater on site without adverse effects on adjoining waterbodies (including groundwater and aquifers) or on adjoining sites or <u>downstream sites</u> , ¹⁰ and
Māori Purpose zone - Rural	Activity status: Permitted Where: PER-1 The impermeable surface coverage of any site is no more than 25%. Except that: On sites containing marae, the impermeable surface is no more than 50%.

	<u>adverse electromagnetic coupling effects</u> ¹⁵	
MPZ-S2	Height in relation to boundary	
<p>Māori Purpose zone - Urban</p> <p>Māori Purpose zone - Rural</p>	<p>The building or structure, or extension or alteration to an existing building or structure, must be contained within a building envelope defined by the following recession planes measured inwards from the respective boundary:</p> <ol style="list-style-type: none"> 55 degrees at 2m above ground level at the northern boundary of the site; 45 degrees at 2m above ground level at the eastern and western boundaries of the site; 35 degrees at 2m above ground level at the southern boundary of the site. <p>This standard does not apply to:</p> <ol style="list-style-type: none"> pou haki provided that they do not exceed the height limit by more than 1m; solar and water heating components provided these do not exceed the height by more than 0.5m on any elevation; chimney structures not exceeding 1.2m in width and 1m in height on any elevation; satellite dishes and aerials that do not exceed 1m in height and/or diameter on any elevation; architectural features (e.g: koruru, finials, spires) that do not exceed 1m in height on any elevation; In the Māori Purpose Zone - Urban, a building or structure exceeding this standard for a maximum distance of 10m along any one boundary other than a road boundary, provided that the maximum height of any building or structure where it exceeds the standard is 2.7m. 	<p>Where the standard is not met, matters of discretion are restricted to:</p> <ol style="list-style-type: none"> loss of privacy to adjoining sites, including potential loss in relation to vacant sites; shading and loss of access to sunlight to adjoining sites, including buildings and outdoor areas; and natural hazard mitigation and site constraints.
MPZ-S3	Setback (excluding from MHWS or wetland, lake and river margins)	
<p>Māori Purpose zone - Urban</p>	<p>The building or structure, or extension or alteration to an existing building or structure, must be set back at least 1.2m from all site boundaries and 3m from a road boundary, except:</p> <ol style="list-style-type: none"> that no setback is required for a maximum length of 10m along any one boundary other than a road boundary. where the site adjoins any zone other than the General Residential Zone, building or structure, or extension or 	<p>Where the standard is not met, matters of discretion are restricted to:</p> <ol style="list-style-type: none"> the character and amenity of the surrounding area; screening, planting and landscaping on the site; the design and siting of the building or structure with respect to privacy and shading;

¹⁵ RNZ (S489.037)

	<p>alteration to an existing building or structure, must be set back 3 metres from the relevant site boundary.</p> <p>This standard does not apply to:</p> <ul style="list-style-type: none"> i. urupā; ii. fences or walls no more than 2m in height; and iii. uncovered decks less than 0.5m in height above ground level. 	<ul style="list-style-type: none"> d. natural hazard mitigation and site constraints; e. the effectiveness of the proposed method for controlling stormwater; f. the safety and efficiency of the current or future access, egress on site and the roading network; and g. the impacts on existing and future esplanade reserves, esplanade strips and public walkways.
<p>Māori Purpose zone - Rural</p>	<p>The maximum height of the¹⁶ building or structure, or extension or alteration to an existing building or structure, must be set back at least 10m from all site boundaries, except:</p> <ul style="list-style-type: none"> i. where a boundary adjoins an unsealed road, habitable buildings must be setback at least 30m from the road; ii. where a site adjoins a Settlement zone, buildings or structures must be at least 1.2m from all site boundaries and 3m from the road boundary; iii. where a site is less than 5,000 m², buildings must be setback at least from boundaries that do not adjoin a road or a site within the Rural Production Zone. <p>This standard does not apply to:</p> <ul style="list-style-type: none"> i. urupā; ii. fences or walls no more than 2m in height above ground level; and iii. uncovered decks less than 0.5m in height above ground level. 	
<p>MPZ-S4 Setback from MHWS¹⁷</p>		
<p>Māori Purpose zone - Urban</p> <p>Māori Purpose zone - Rural</p>	<p>The maximum height of the building or structure, or extension or alteration to an existing building or structure, must be set back at least 26m from MHWS.</p>	<p>Where the standard is not met, matters of discretion are restricted to:</p> <ul style="list-style-type: none"> - a. the natural character of the coastal environment; b. screening, planting and landscaping on the site; c. the design and siting of the building or structure with respect to dominance on adjoining public space; d. natural hazard mitigation and site constraints; e. the effectiveness of the proposed method for controlling stormwater; and

¹⁶ Clause 16 amendment

¹⁷ Consequential amendment resulting from Coastal Environment section 42A report under clause 10(2)(b), Schedule 1, RMA.

		f. the impacts on existing and planned roads, public walkways, reserves and esplanades.
MPZ-S5	Building or structure coverage	
Māori Purpose zone - Urban Māori Purpose zone - Rural	The combined building or structure coverage of the site is no more than 50%.	Where the standard is not met, matters of discretion are restricted to: a. the character and amenity of the surrounding area; b. any landscaping, planting and screening to mitigate any adverse effects; c. the extent to which private open space can be provided for future uses; d. the extent to which the siting, setback and design mitigate visual dominance on adjacent sites and surrounding environment; and e. natural hazard mitigation and site constraints.
MPZ-S6	On-site services Servicing¹⁸	
Māori Purpose zone - Urban Māori Purpose zone - Rural	Wastewater 1. Where a connection to Council's reticulated wastewater systems is not available: a. any residential unit has a minimum exclusive use area surrounding the unit, for on-site wastewater treatment and disposal, of 2,000m². b. all wastewater treatment and disposal systems must be contained within the site that the system serves, and be connected to a septic tank or soakage field or an approved alternative means to dispose of sewage in a sanitary manner in accordance with Far North District Council Engineering Standards April 2022. c. where sewage is to be disposed to ground, the receiving area must not be: i. land susceptible to instability; or ii. an area identified in the District Plan as subject to inundation; or iii. used for the disposal of stormwater. d. A site suitability report for on-site wastewater disposal, prepared by a suitably qualified and experienced person,	Where the standard is not met, matters of discretion are restricted to: a. the ability to ensure an adequate supply of potable water for the uses of the site or activity; b. the security of any proposed potable water supply from contamination; c. the adequacy of storage volume of water for domestic and fire-fighting purposes; and d. the ability to ensure the avoidance of soil contamination or any other adverse effects from the discharge of any wastewater or stormwater. e. <u>The suitability of an alternative wastewater disposal system</u> f. <u>The extent to which stormwater runoff from the site may adversely affect adjoining or downstream sites.</u>

¹⁸ S 396.019 and S516.042

	<p>to demonstrate compliance with the above standards, shall be submitted to Council for approval at time of building consent.</p> <p>Water</p> <p>2. Where a connection to Council's reticulated water systems is not available, all residential units shall have access to potable (drinkable) water. from a community water scheme or private water bore or shall be able to store 45,000 litres of potable water from another source.</p> <p>Stormwater</p> <p>2. Where a connection to Council's reticulated stormwater system is not available then stormwater must be disposed of in accordance with Far North District Engineering Standards 2022 within the site.</p> <p><u>An engineering / site suitability report is required to determine compliance with these standards</u></p>	
<p>MPZ-S7 Sensitive activities setback from boundaries of a Mineral Extraction overlay</p>		
<p>Māori Purpose zone - Urban</p> <p>Māori Purpose zone - Rural</p>	<p>Sensitive activities (excluding non habitable accessory buildings) must be setback at least 100m from the boundary of an¹⁹ Mineral Extraction Overlay.</p>	<p>Where the standard is not met, matters of discretion are restricted to:</p> <ul style="list-style-type: none"> a. noise, disturbance and vibrations; b. scale and type of mineral extraction activity; c. the frequency and nature of any blasting or extraction method to obtain the mineral resource;; d. hours of operation of the mineral extraction activity e. design of the building; f. whether there are alternative options for the location of the building; and g. temporary effects.

¹⁹ Clause 16 update
