My submission is: <i>(Include details and reasons for your position)</i> The minimum lot sizes in the Rural Production Zone that have already been subdivided down to a size that are not economically viable as rural production units could be further subdivided. There are areas in the existing Rural Production where subdivisions have occurred, resulting in small lots not suitable for Rural Production purposes. Generally, these properties are residential in nature but on lot sizes larger than standard residential sites, varying between 1 & 2 hectares. The ability to further subdivide these properties to a minimum of 3,000 or 4,000m ² would make land available where subdivision has already occurred, preventing larger allotments from being subdivided and keeping higher density development grouped in areas already developed.
I seek the following decision from the Council: <i>(Give precise details. If seeking amendments, how would you like to see the provision amended?)</i> Have a provision to allow further subdivision of existing lots if they are below an area that is viable as a rural production unit in the Rural production Zone.
