

### Simson Park Domain Concept Plan notes

#### Informal Recreation Spaces

- Include seating, (see images sheet).
- Tree planting to include citrus and native tree species, shown in indicative locations.
- Incorporate design elements with artwork to reflect the park's theme.
- Create a whānau space featuring a gazebo for shade and shelter, supporting netball and other activities - see images sheet.

#### Pathways and Accessibility

- Develop paths for walking, biking, and scootering, connecting to existing street footpaths.
- Construct a new footpath along Leaity Street to form a circuit.

#### Community Facilities

- Allocate space for potential hall expansion to enhance its function as a community facility.

#### Shared Clubrooms

- Include public toilets with exterior access.
- Facilities to feature changing rooms for rugby, netball, summer sports, a kitchen, and a social area.
- May also include a small gym, decks, and potential provision for rugby league in the future.
- Consider an indoor court as part of complex, alternatively an all-weather area could be created by roofing some netball courts.
- Development could occur in stages.

#### Sports Fields and Courts

- Add a fourth winter sports field and ensure the number one fields are full-sized.
- Removing the driveway along the park's northern edge needed to accommodate all full-sized fields.
- Renovate the basketball court within the multipurpose court area and provide space for other court activities.

#### Softball Diamond

- Install a permanent softball diamond with moveable fencing to allow other uses of this area.
